300 SPECIALS TO BE RUN TO FIGHT ARENA

TOLEDO, O., June 14.—No less than three hundred special trains will be run to Toledo for the heavyweight championship match between Jack Dempsey and Jess Willard on July 4, Tex Rickard, promoter of the contest, said today.

Willard announced today that he expects to weigh within two or three pounds of what he scaled when he won the championship from Jack Johnson in Havana in 1915. Willard tipped the scales at 249 1/2 pounds then and he was only two and a half pounds above that figure when he finished his workouts today.

If the cut over Dempsey's damaged eye is sufficiently healed, the challenger will be allowed to resume boxing tomorrow.

Sailor Bill Ketchel, the young heavyweight who joined Willard's staff of sparring partners yesterday, is on his way back to New York today.

Willard sunk a left hook into Ketchel's mid-section and he allowed that he had enough.

Brotherhood Turns Down Action of Winnipeg Locals

WINNIPEG, Man., June 14.—Although local service was somewhat impaired, trans-continental railroad traffic was not affected last night or early today by the action of local firemen and trainmen who voted on Thursday to join the sympathetic strike of Winnipeg labor unions.

Because the railroad brotherhood executives repudiated the strike action of the locals, a majority of the Winnipeg men decided to wait until today before deciding whether to act in defiance of orders.

It was announced this morning that brotherhood executives have conferred with Senator Gideon Robertson, federal minister of labor. Matters discussed at the conference were not made public. It is understood, however, that the brotherhood officers are interested in the new conciliation movement which was begun after a plan for strike settlement was suggested by some leading Winnipeg employers.

CONSUMERS OF MEAT BLAMED

Retail Dealers Discuss American Habits of Eating and Declare Beef Has Dropped.

CHICAGO, June 14.—A statement blaming consumers in part for the high cost of meat was issued today by the retail meat dealers of the United States. "The American people," said the statement, "by its eating habits which they adopted during the war but which are now both unnecessary and unwise, are denying themselves the full benefit of decreases in wholesale prices of meat."

The statement asserts that retail prices have dropped materially, despite contrary reports. It adds: "Two large groups of the population are holding back on consumption of meat. One group is comprised of the persons who in normal times treat themselves to the best quality of pork, beef and mutton. This group is still continuing its reduced consumption of beef, although the necessity of conservation of it no longer exists."

"Another large group is buying only those sorts of beef which can be cooked quickly and easily. 'Everybody is neglecting lamb and mutton. The people do not seem to realize that beef has dropped materially and is now cheaper than any other meat.'"
